Infs 3.15pm / Jnrs 3.20pm

### 18<sup>th</sup> April

School Opens  
Jnrs 8.55am / Infs 9.00am

## This Week's Superstars!

During Friday assembly, superstars for each class, nominated by the teachers, are always announced. Children might be chosen for great work, brilliant behaviour, fantastic learning- anything which makes them stand out! So as to share their achievements better with you, children will now be presented with a "Star of the Week" certificate. We are also introducing a superstar medal for each class. This medal will be presented to one child each week. The medal winner will wear the medal during school for the week before presenting it to the next winner the following Friday.

## Parents' Evenings

Don't forget that parents' evenings are planned for next week. **Please could all parents check in at the school hall where one of our Year 6 team will be waiting, ready to take you to your appointment.**

## Engineering Heaven

Our school-wide engineering project is well under way with children in the juniors enjoying a fascinating morning with members of the Yeovil College Stem team and a Rolls Royce engineer. What a wonderful inspiration for our boys and girls.

## Reading Week

Thanks to everyone for making this such a successful week. Highlights included 'Stories with Fairylights', 'Drop Everything and Read', themed reading gazebos, 'Bring a Parent to School', making book lanterns and of course, 'Book Character Day'.

## Attendance

Thanks to parents for working with us to keep our children healthy and to get our children to school.

Attendance for the Autumn Term was 96.7%, above the national average and placing us in the top third of primary schools for attendance.

Tomorrow's engineers today!
